

Vishwanatham Srinidhi

Phone: 7989804793|Email: srinidhi9163@gmail.com | Hyderabad, Telangana GitHub: github.com/Srinidhi9163

PROFILE

Motivated and detail-oriented Computer Science and Engineering undergraduate with a strong foundation in Java, Python, C, SQL, DBMS, and web development. Passionate about software development and problem-solving, with hands-on experience in developing academic projects using Java, MERN Stack, and database technologies. A quick learner with strong analytical and teamwork skills, eager to contribute to innovative projects while continuously enhancing technical expertise.

WORK EXPERIENCE

Student Trainee

NSIC Technical Services Centre, ECIL, Hyderabad

- Successfully completed industrial training focused on practical applications of computer science concepts, gained hands-on experience in software development and project implementation.
 - Worked on academic and practical projects using industry-standard tools and technologies.
 - Enhanced programming, problem-solving, and debugging skills through practical sessions.
-

EDUCATION

B.E. Information Technology, Vasavi College of Engineering (2024–Present), CGPA: 8.00

Diploma in Computer Science & Engineering, TKR College of Engineering & Technology, Passed Out: 2024, CGPA: 9.87

Schooling in Montessori Resedential School, Alampur , GPA: 9.8/10.0

TECHNICAL SKILLS

Programming: C, C++, Java, Python Web: HTML, CSS, JavaScript Database: SQL, DBMS Core: DSA, OOP, Operating Systems, Computer Networks Tools: Git, GitHub, VS Code

PROJECTS

1.Multi-Source Dijkstra Based Disaster Evacuation Planning System | Java, JavaFX, Graph Algorithms

GIT: <https://github.com/Srinidhi9163/Disaster-Evacuation>

Developed a desktop application to determine optimal evacuation routes using Multi-Source Dijkstra's Algorithm.

2.Smart City Civic Issue Reporting System | Java, SQL, DBMS

GIT: <https://github.com/Srinidhi9163/Smart-City-Issue-Reporting-System>

Built a database-driven application for reporting, tracking, and managing civic issues, Designed a relational database to efficiently store complaint details, user information, and issue status.

3.CodeConnect | MERN Stack (MongoDB, Express.js, React.js, Node.js)

GIT: https://github.com/Srinidhi9163/Code_Connect Developed a full-stack developer collaboration platform for sharing coding projects and technical discussions
